Profile

I have experience in communicating with people to work professionally. Strong creative and analytical skills. Team player with an eye for detail. Proficient in a variety of programming languages and frameworks including HTML5, CSS3, JavaScript, and HTMX, Flask. Skilled in front-end and back-end development, adept at creating dynamic web applications tailored to meet client specifications

Professional experience

(September 2023 – Present)

Web Developer

Gig on Fiverr

- Created websites that work well on phones and computers, exactly how clients wanted.
- Talked a lot with clients to make sure I understood what they wanted and finished their websites on time.
- Kept talking to clients all the time, letting them know how things were going, and fixed any problems they had quickly.

(October 2023 – Present)

Web Developer

Bidding on Upwork

- Made websites for different people by offering my services on Upwork.
- Bid on various projects, like making online stores, showcasing work, and single-page websites.
- Stayed in touch with clients through messages, letting them know how everything was going, and fixed any issues they had quickly.

(June 2020 – Present)

Projects

University and Others
